

FLASH WEBSITE PROJECT**TOPICS OF INTEREST**

Your flash website will be used inside your working portfolio, the choice is completely yours regarding the presentation of the site. Some ideas can include;

- Personal page about yourself
- A fictional character
- A movie, music band, game
- An author

ROOT FOLDER – 10%

Your root folder is your home folder label LastnameFirstname_Assignment2 where you will have inside:

- PSD folder
- Flash folder
- Images folder
 - Regular folder
 - Thumbnails folder
 - Logo folder
 - Background folder
- Content folder
 - Website folder
 - Work Sited folder
- Sound folder (optional)
 - .mp3 file

Make sure to label your folder first then zip (compress) to retain the filename LastnameFirstname_Assignment2

PHOTOSHOP – 30%

Have a PSD working file saved as nameofSite.psd. Inside your PSD must include;

- Groups with layers inside
 - Group for icons
 - Group for logo
 - Group for hover
 - Group for text
- Make sure when you save your PSD, your group hover eye is unchecked. I want to be able to toggle on/off through your PSD comp.

FLASH WEBSITE PROJECT**FLASH 50%**

Have a flash folder with a working .FLA file and your .SWF file. Inside your .fla file must include

- Groups with layers inside for timeline and properties
 - Group for icons
 - Group for logo
 - Group for text
 - Group for sound
